

My dream job

Du Xiran, Steven (6C)

I want to be an English teacher when I grow up because I want to teach more children to learn how to speak English correctly by speaking with them directly. I also want to help them to learn.

From now on, I will start to study hard and read more English books to enrich my English knowledge. My role model is my English teacher, Miss Chan. I think she is a good teacher. She is the best teacher in the world. She always teaches us to be patient and she is helpful too. I want to be a good teacher like her.

I really want to be a teacher, so I will study harder so that I can enter a university to further my education and learn how to be a good teacher in the future.
