

A visit to Joyful Children's Centre

Kwan Sin Yu, Sherry (3D)

On Friday, my classmates and I visited Joyful Children's Centre.

Before the visit, we prepared some snacks for the children. The sausages and chicken wings were very tasty. Then, we painted the bookshelves blue because the children like blue.

In the afternoon, we played some games with the children. They loved playing hide-and-seek most. Suddenly, a boy started to cry. I thought no one played with him and he was lonely. I gave him a toy car and he stopped crying. 'Thank you! I like it very much,' the boy said. 'You're welcome. Let's play together,' I replied.

I felt happy to make new friends. I thought the visit was very meaningful and I hope I can visit them again soon.
